## Trip To "Rocky Mountains" of Texas

BY W. E. BENSON

SECRETARY, HAMLIN CHAMBER OF COMMERCE

The above heading, I feel, expresses the opinions of many when they have the opportunity of going deep into the Davis Mountains of Southwest Texas, or what is commonly called the Big Bend Sector. After all, the Davis Mountains and the mountains of New Mexico and Arizona are only a continuation of the great Rocky Mountain Ranges.

### ROUTE TRAVELED

To reach the farthest point traveled on my July 4th trip, which was the "McDonald Observatory" located 17 miles northwest of Ft. Davis, Texas, and over the route traveled 360 miles from Hamlin, Texas, had to travel on 6 different Texas Highways and one of our great railroad systems. The highways were numbers 15-70-1-290-17 and 166. The railroad used was the Texas & Pacific from Sweetwater, Texas, to Toyah, Texas. On our route we passed through more than 20 Texas towns and cities, all of these being located in the territory of the West Texas Chamber of Commerce, most of which maintain membership in this organization. As we passed Sweetwater we were reminded that here lives the capable Secretary of the Board of City Development, Mr. George Barber and at our last convention in Brownwood was voted the most outstanding Secretary of all the area covered by the organization. Then at Colorado City we were reminded of their very capable Secretary, John Greene, who was voted the outstanding Secretary at the Amarillo Convention for 1936. At Big Spring we were reminded that Mr. B. Reagan, their Director, was voted as the outstanding Director for the year just passed. Then at Pecos, Texas, we thought of Ben Smith, a former Hamlin boy, who is guiding the destiny of that section in Chamber of Commerce work.

### TOYAH, A TOWN OF MEMORIES

We left Sweetwater, Texas, at 7:20 P. M., July 3, 1937, on board one of the T & P's best trains, being the Sunshine Special; every coach is airconditioned, and makes a trip by rail in the hot weather very pleasant, we arrived at Toyah, Texas, at 1:20 A. M., July 4, 1937. It had been 11 years since we had visited

this thriving little town; here lives a sister, and her husband is mayor of the town. They have lived there since 1908., and will tell you they really like it. It was at this sister's home in Aug. 1926, that our mother was called away. The T & P Railway Co. has built a pipe line from Toyah many miles to the south in the Davis Mountains, and Toyah and the Railroad are now supplied with pure Mountain water.

### FT. DAVIS AND McDONALD OBSERVATORY

These two points are some 100 miles southwest of Toyah, Texas, so in company with our sister, Mrs. B. F. Powell and Mrs. Frank Frank Macek, wife of the night Supt. of the T & P Roundhouse we motored to Ft. Davis and the McDonald Observatory. The route is very interesting, as you travel over 5 different highways, you see some of the prettiest scenes that nature can provide, high mountains on either side, some of which are nearly 9000 feet in altitude. At Ft. Davis you can still see the old buildings in which Uncle Sam kept his troops during Indian days. At Toyah, Texas, there lives an old Mexican who worked with these troops during the early 70s, and says he remembers very distinctly that one time the Indians made a raid in that section, that the U. S. Cavalry followed them and overtook them in the mountains of New Mexico, charged into their camp and slew all the Indians, there being 200 of them in all. Near Ft. Davis we passed some very beautiful apple orchards, the trees were heavily loaded with luscious looking apples, and they are known far and wide as the Fort Davis Apple. From Ft. Davis we traveled over Highway No. 66 to the McDonald Observatory, this being located one of the highest mountains in this range, the altitude being 6825 feet. This, too, is the 2nd largest observatory in the world. The building that will contain the instruments is finished, but the glass for the large telescope has not been received, so the building is not open for the public.

Thus for scenic beauty we come away feeling that if there is any person here or elsewhere around who has not had the pleasure of a trip into the Davis Mountains of Southwest Texas, and you have the opportunity, be sure to put this particular section on your schedule.

## ANSON TO HAVE FOLK CARNIVAL

A Jones County Folk Festival is to be pulled off in Anson, July 16-17. One of the features will be the coronation of the Jones County Queen of Folk Carnival. She will have a float in the parade late Friday afternoon, July 16th.

The girl in Jones County receiving the highest number of votes shall be Queen. Individuals may cast as many votes as they please. (But on what basis is not yet clear.) Votes will be received at Bonner's and at Heidenheimer's from 10 o'clock in the morning until 10 o'clock at night next Saturday, July 10th. The Jones County girl elected Queen will be crowned on the court house lawn at the close of the Folk Carnival, Saturday evening, July 17th.

The Folk Carnival Chairman is Miss Leonora Barrett. Any one needing further information will please communicate with Miss Barrett, at Anson.

### VISITED YELLOWSTONE PARK

#### AND EIGHT STATES

Mr. and Mrs. Ross Fomby and Mr. and Mrs. Frank Waggoner and little son, Jerry, returned Tuesday from an extensive auto trip to Yellowstone Park and points in about eight different states. They had a most enjoyable time.

Mrs. Dode Sanford was taken to the Abilene Hospital last Saturday night for an operation for appendicitis. She is reported getting along nicely.

## LIONS HAD GROUP MEETING HERE

Tuesday evening was a big hour for the Lions of Hamlin with a large number from Anson, Snyder and Colorado as guests.

It was Hamlin's time to entertain the Group which is known as No. 5 and is composed of the towns named above and Big Spring and Midland. These two towns were not represented in the Tuesday night's meeting at the Model Hotel.

The Herald was represented by Ye Editor, as a guest and this we greatly appreciated. It had been a long time since we had the experience of being in that bunch of rolicky roaring Lions and believe "us" they make a lot of fuss. You see the Lions claim mostly young guys and therefore should act "jittery" and sometimes gay to keep up appearances and make their older brothers and fathers seem all the older. This paragraph is just a bit of the "low-down" on our neighbors. There was considerable talk down at the Hotel Tuesday night about their ranks of single men getting so low—only three left now—Arlie Cassle, Iris Pribble and Otto Berlin. It seems the impression is that ere long there will be but two—maybe one left. Don't have any idea how all that will come about—that's nothing—even the Rotary Club has three single men in its ranks—Elmer Rodgers, Denman Morgan and Forrest Greenway, all handsome and gay young fellows, and not a word or hint that anybody in the gang is going to change their state of single blessedness. . . . anyway, regardless of membership, or visitor, male or female you had better be on your toes at a Lions Club meeting. You can't tell what will happen next. If you sit down it's a fine and maybe the rule is to sit and if you stand it is a fine, and again if you are too early it's a fine and perhaps if you are late it's a fine, and maybe if the Tailtwister thinks of it he will have some fellow to empty his pockets and then fine him for not having just what was expected. We wonder where all the money goes. One club reported Tuesday night they had a balance of over \$1,100.00. It was NOT Hamlin. It would be a good tip if some of the preachers would take a lesson on how to raise money. It would not surprise us if sometime a tailtwister might not forget when he is passing the plate at his church and make some fellow pitch in a dollar or two.

This paragraph is thrown in for extra. Just one or two more low-downs on the Lions . . . it seems that the Hotel has been missing some of their dishes, spoons, salt and pepper shakers, etc. A kind member called on all the visitors to NOT do that way Tuesday night and everything got as quiet as a mouse. So the next thing was to have the highest powered tailtwisters to search. It was found that several coats that had been brought along for decoration of backs of chairs had been well filled with all kinds of things from the table. Visitors too—even the County Attorney of this great and good Jones County was found to have a lot of things ready to carry off to Anson. This was revealed by a prominent Lion from Snyder. One of the best and most serious and inspiring talks we ever heard was by our own Judge Omar Burleson of Anson—and what a speaker? But lo and behold after that speech Lion Gerald Morgan suspicioned something and steps over to the Judge and says, "Hold on here, Lion Omar, let's search you." Sure enough the Judge had all those things in his pockets while he was making that pious talk . . . you just can't tell at a Lions meeting. So much for so-so.

Lions can get down to serious business, for a little while.

Arlie Cassle was Chairman of the Group, and was serving his last meeting, and after some effort he got the boys down to the real program. This consisted of several song numbers by Misses Dorothy Jean and Geraldine Shaw accompanied by Miss Allene Harden, of Abilene. Miss Polly Campbell, Tap Dancer instructor, of Abilene, demonstrated that right here in West Texas is a star tap-dancer. Other guests from Abilene were Miss Grisom and Attorney John Pope Jr. and Millard Shaw, now of Dallas. An-

## OLNEY AUCTIONS LIVESTOCK JULY 12

The Olney Livestock Auction Co. will open its Livestock pavilion for the first sale here Monday, July 12 at 10:30 A. M. with Rex Lacey and P. F. Roy from Enid, Okla., as owners and managers in charge.

"Everything to sell on the block," and "nothing too large or too small" is the aim of those in charge. These men are well experienced in the auction game having been in it 28 years. Hook ups are had with Kansas City, Oklahoma City and the Ft. Worth markets and these commission buyers will make the Olney sales, according to Mr. Lacey the auctioneer.

The Olney Chamber of Commerce and business men have gone to considerable expense to build this sale. They are hopeful of building at Olney a needed livestock market second to none in this section. Although these men will in this sale feature livestock all sorts of miscellaneous items will be auctioned.

The first sale—Monday, July 12th—is expected to be a big one and farmers and stockmen from all parts of the country are expected to be present and to bring what they want sold—but each and every Monday at 10:30 A. M. the Olney Livestock Auction Co. will conduct a similar sale. Come to Olney, July 12th, for the first sale.

WM. A. WILSON, Mgr.,  
Olney Chamber of Commerce.

## TOM WILLIAMS NEW ROTARY CLUB PRES.

Wednesday of this week a new president for the Hamlin Rotary Club was inducted. This year it is Tom Williams.

The Hamlin Rotary Club has twenty-four members and the way President Tom starts off this is going to be one of the banner years of Rotary in this community.

In his "inaugural speech" he set a high standard for the club to reach. One remark he made was about a motto he had once seen that impressed him. It read "Do Something, even if it should be wrong." In other words, the club or the individual who does nothing cannot accomplish anything. He stressed the idea, "Do".

The ideal of Rotary is "Service" and Tom Williams made it clear that there is plenty a service club can do and should do in the Hamlin community.

To carry out the various objectives, Williams appointed a few essential committees, for example:

Classification, Bill Cherry and Arthur Albritton.

Membership, Tate May and Frank Waggoner.

Fellowship, Bowen Pope and Bob Wiar.

Attendance, Tom Teague and Ed-die Jay.

Program, Elmer Feagan and Jim Moody.

Community Service, Henry Littleton and Carl Young.

Rural Urban, C. G. Green and Ivy Witt.

Other members will be named to do special service as the year goes along.

The president stressed a definite objective for each of the committees. He paid a compliment to the retiring president, Arthur Albritton, and said that at least we should expect to try to make the club as effective as the year just passed, and that will mean a good Rotary Club.

Rotary International has spread all over the world and is doing much

## ANY GIRL CAN GO TO COLLEGE

DENTON, July 5.—Cooperating living on the Texas State College for Women campus has become popular that two additional \$9,000 homes are now under construction. When these are completed the college will have twelve cooperative residences in which students may work to earn a part of their living expenses.

Girls living in these dormitories pay part of their tuition fees with canned goods or other home-produced foods, and may do light housekeeping to lessen their room and board. The system was begun September, 1934, and has grown so rapidly that by fall accommodations will be ready for 550 students.

The two new buildings will be frame structures similar to the seven new ones constructed last year, according to W. M. Loveless, business manager of the college. Each dormitory will house forty girls.—T. S. C. W. News Bureau.

Miss Elizabeth Cox, of Abilene, was a guest from Thursday until Sunday in the homes of Mr. and Mrs. J. P. Morgan and Mr. and Mrs. Gerald Morgan.

for the welfare of humanity and progress in every land where it operates. It is a living, progressive movement for each and every avocation represented in each of its many thousand clubs. It might well be called the "Father of Modern Service Clubs," of whatsoever name. It seeks to create proper sentiment and backing for every worthy and practical enterprise in its community. It seeks to have a representative of each business enterprise in the community.

Hamlin is only one of the thousands of small communities whose people and problems are similar. The Rotary Club in any community has a mission that has not been filled by any other organization.

- —Shake any liquid medicine.

- —Give just the amount ordered — not one drop more or less. While pouring, hold medicine glass with the mark of the right amount on the level with your eye.
- —Cork the bottle at once. Some medicines get stronger —others weaker when left uncorked.
- —Read the label the third time.
- —After a dose of unpleasant medicine give water, a cracker or a peppermint.

## FIGHTING FIRES

Fire dangers are like war dangers—the best way to handle either is to fight them before they start.

There are two factors, at least, with which humanity must always deal—carelessness and ignorance. These two are what President Roosevelt meant when he called on the nation to help the government fight fires—especially forest fires.

In Hamlin, we need not be concerned about the "forrest" but maybe there is some dry grass or trash we must fight against.

Our fire boys, under the captaincy of Fire Marshal F. M. Crow, seek to enlist everyone, especially young boys, in fighting fires before they start. Every citizen is individually responsible as a fire-fighter—it is a crime to shirk that responsibility. The Herald is glad to help fight a fire by calling attention to fire dangers and by cooperating with the city and fire boys wherever possible.

## BETTER BEAR THIS IN MIND

DALLAS, June 30. — Effective July 1, all social security account numbers will be issued to workers from field offices of the Social Security Board, it was announced here by Ernest L. Tutt, manager of the Dallas field office of the Board.

Workers in the Dallas territory who have not yet applied for account numbers may obtain application blanks (Form SS-5) at their local post office, but the executed forms should be forwarded with re-

quired postage prepaid to the Social Security Board, 1530 Allen Building, Dallas, where the account number cards will be prepared and returned to applicants.

Since the account numbers of all workers in employment covered by the Social Security Act must be reported by employers to the Bureau of Internal Revenue during July, it is likely that receipts of SS-5 forms by our office will be heaviest during that month; however, every effort will be made to return account number cards to each worker promptly whose application form has been completed satisfactorily," Tutt said.

Postmasters will continue to give the applicant any information and assistance he may require in filling out the form.

Employers who have not applied for identification numbers may obtain the necessary form (SS-4) from post offices. This completed form should be forwarded to the Social Security Board, 1530 Allen Bldg., Dallas, Texas.

Mrs. George Bender of Presidio came over Tuesday to look after her residential property here and to visit old friends. She says Conductor Bender is improving fast, and is on the road again and they are enjoying their time in the city on the Rio Grande.

## JIM FERGUSON

## SAYS BEGIN NOW

(Editor's Note: This article is published as a news item and represents the personal views of Mr. Ferguson only. This concludes his series of letters to the Herald. Whether you agree with Mr. Ferguson or not all must admit he gets the low down on things at Austin.)

The legislature has just adjourned its special session and the Governor has announced that he will again convene the legislature in September.

The main purpose of the next session is to provide revenues to pay the appropriations made by this legislature, amounting to approximately one hundred and seventy million dollars, including a deficit of about thirty-one million dollars. In other words, while the legislature has for about five months been spending they will at the September session try their hands at getting the money to pay the bill.

In addition to providing payment for debts already incurred by the state there are other debts the state has not provided for. For instance no provision has been made to pay the \$15.00 monthly pension which the people voted a constitutional amendment for. The legislature at the next session can provide for a part payment to less than one-half of the people qualified under the constitution and repudiate payment to the balance, or they can provide for the full payment of the pension justly due under the constitution.

Between now and the next session of the legislators I think the people and the members of the legislature ought to have a little heart to heart talk in the nature of a fireside chat about what the people want their legislative representatives to do about the next session of the legislature.

It would be a good idea for the members of the legislature to call the people of their district to assemble in mass meeting and there tell the people what they are going to tax and how much they are in favor of. Then after they have fully stated their intentions, then call on the people assembled to give a word of mouth of approval of their position. Maybe a majority of the people won't come to the meeting, but a good many will, and the representative will have done his part in an honest effort to learn the desire of the voters and be willing to carry out their will.

To pay the full pension and treat all the old people fair, it is going to take at least forty million dollars. There is according to the last Federal census at least 250,000 people qualified under the constitution to receive the full \$15.00 a month pension.

The only fair way to get this money is to levy a 2 per cent sales tax on all commercial sales. This tax instead of being a discrimination against the poor, as the big merchants declare, is a tax in favor of the poor, and only requires the payment of the tax in proportion to the ability of the tax payer to buy. Really and truly the sales tax is the poor man's tax, because if he does not buy much he does not pay much, while the rich man must pay the full tax on the amount which his wealth enables him to buy.

The deception that the sales tax is a burden on the poor should stop, and if the people will study the question and demand that their representative come clean with them, we will soon get enough tax without hurting or oppressing anybody to pay the pension in full and all the other debts of the state.

Nineteen states have the sales tax and there is no repeal proposed in any state.

If the people want to join me in an honest to God effort to stop this wild extravagance and waste of the tax money and put this state out of debt, just let me hear from you and I will give the best there is in me to bring the relief and render the service which the people so much need. I still live in Austin, Box 1158.

J. C. Turner was taken to the Stamford Hospital Monday for a minor operation. He got along fine, enjoyed the rest and the "company" and really had a good time. He should be at home by Sunday.

Mr. and Mrs. C. P. Amerson, accompanied by their daughter, Mrs. Gerald Morgan, left Sunday for Victoria where they were called because of the death of Mrs. Amerson's uncle. Before returning home they will visit relatives in Corpus Christi.

## Strength During MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

In such cases, Cardui has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

C. H. Ellis, postmaster of Lelia Lake, Texas, was a guest in the home of Mr. and Mrs. Dan W. Stephens last week and attended the Stamford Cowboy Reunion. Mr. Ellis, with Mr. Stephens came to this county in 1879.

## "A CAR CAN BE ENTERED GRACEFULLY," SAYS GRACIE BARRIE

Above, incorrect way of entering car—placing left foot on right running board. Below, correct way of entering car—placing right foot on right running board.

"In spite of a lot of evidence to the contrary, it is possible to enter an automobile gracefully," says Gracie Barrie, featured singer of the Broadway production "The Show is On." Miss Barrie dropped into the new Broadway Hudson and Terraplane Showroom recently to inspect the display. It was during her inspection of one of the new Convertible Broughams that she discussed the possibility of entering a car without appearing in the least degree awkward.

"I have seen so many people entering a car with labored and ungainly effort, that I made a study of the situation and believe I have discovered a very simple but effective rule," said Miss Barrie. "It is simply this—if you enter on the right side of the car, place your right foot on the running board, and if you enter the left side of the car, step up with your left foot. You then simply have to pivot about and you are in a position to sit down gracefully. I have noticed that all of the awkward efforts some people make in getting into automobiles is simply because they did not step up with the correct foot first."

At the conclusion of this, Miss Barrie kindly consented to pose for the correct and incorrect manner of entering a car with the result shown herewith.
